

Carol Webb

Agriculture Education Teacher/
FFA Advisor
Mineral County

How has being a woman in Agriculture helped you succeed in life?

Growing up on a family farm taught me values, work ethic, determination and perseverance. I learned our agricultural industry isn't without setbacks, failures or disappointments but regardless of this, one

can't lose optimism. This journey and the steps taken help make us stronger and develop a sense of character, gratitude and purpose. As a producer and educator I'm pleased to play a role in agriculture. Today's

agriculture provides a multitude of opportunities to be successful whether you are from the country or city. Being an agricultural educator provides a mission to make a difference in lives. Hopefully I have made an influence and someone can say their life is better because of the opportunities they were provided. ● ● ● ● ● ● ● ● ● ●
